SMOKE ALARMS SAVE LIVES

REMINDER FROM YOUR FIRE DEPARTMENT

ONTARIO FIRE CODE RETRO-FIT 9.8 (BASEMENT APARTMENTS)

Retro-Fit 9.8 of the Ontario Fire Code sets out provisions that the owner, is responsible to insure that the fire separations between and electrical safety, of an existing single family detached home, semi-detached home, and row homes which contain an owner-residence on first floor and a separate rental apartment in basement. This applies when a basement apartment has its own living, sleeping, kitchen and bathroom areas.

The Fire Code also states that the owner is responsible to provide and maintain a working smoke alarm on every level and outside every sleeping area for these types of residences.
